

How to apply your SIMTICS purchase link through your school's Learning Management System (LMS) – PES School of Nursing

Step 1: Log into Moodle as you normally would – **DO NOT USE THIS LINK OUTSIDE OF Moodle** or you will not be connected with your school.

Step 2: Find and open your first SIMTICS assignment in Moodle

- You will be automatically connected to the SIMTICS system.
- It will recognize that you are a new user and that you need to purchase a subscription to activate your SIMTICS account:

The screenshot shows the SIMTICS activation page. At the top left is the SIMTICS logo with the text "powered by SimTutor". The main content area has a white background with a purple header. The text reads: "You don't have an active SIMTICS account yet. Use the purchase link your school has provided - you'll find it in the SIMTICS instruction sheet." Below this is a section titled "Purchase Link" with a text input field containing the placeholder "Enter url". To the right of the input field is a green button labeled "Proceed to Checkout".

Step 3: Paste your purchase link into the field on the form: (make sure you are in Moodle – DO NOT use this link OUTSIDE of Moodle)

<https://payment.simtics.com/PESMA>

Then click the green "Proceed to Checkout" button

Step 4: Provide your credit card details (see screenshot below)

Enter your credit card details on the payment form:

- If you will use this same card in future to buy the other bundles for your course, you can save your card details - put a check mark in the small box below the address: **"Save this Credit Card information for the future"**.

Check that all your information is correct, including the address, then click/tap the blue "Pay" button.

Order Summary

Description	Reproductive Systems Scanning	Total	\$ 1.00
Invoice Number	INV_2001697625090		

Card Number * <small>VISA</small> 4111 1111 1111 1111	Exp. Date * 12/23	Card Code 123
--	----------------------	------------------

Billing Address

First Name John	Last Name Smith
Billing Country USA	Zip 10014
Street Address 14 Jane Street	City New York
State New York	Phone Number

Save this Credit Card information for the future.

Pay
Cancel

A payment confirmation will display, matching the bundle you just purchased.

Step 5: Click/tap the blue “Continue” button:

Mon Jun 28 2021 4:56:00 PM

Continue

Thank you for your payment.

\$ 1.0

- Once you have completed your purchase, you will be automatically directed to the SIMTICS module you selected.
- You will not need your purchase link again.

Step 6: Getting started with SIMTICS

- As your first step, **make sure to study the SIMTICS Tutorial module** so you can learn how the product works and where to find everything. Your school will probably have set up the Tutorial as the first assignment for you, however if you don't have access to that for any reason, you can access the [video part of the Tutorial on YouTube](#).
- Each SIMTICS assignment link in your school's system will take you directly to all or part of a specific SIMTICS module. For each assignment, make sure to check what your instructor requires you to do; for instance you might need to complete a Test Mode Simulation. When you complete that required activity, your score will be sent back to your gradebook.
- **Notes:**
 - By default a Test Mode Simulation score is sent back to the gradebook. Scores for quizzes or for simulations you do in Learn Mode and Practice Mode are usually not sent back, unless your instructor has specifically programmed that in for a particular assignment.
 - Only one score can be sent for each assignment, so make sure you complete what your instructor requires.

How to get help with SIMTICS

- As mentioned above, make sure you go through the SIMTICS Product Tutorial first, so you know how the product works. Many potential questions are answered here, that will save you time later on.
- If you have any queries while you're using SIMTICS, you have multiple help resources at your fingertips:
 - There is step-specific help available while you're doing a simulation – click on “Navigation” at the bottom right of the screen to open the navigation timeline, then

click the “?” symbol:

- You can check the online [SIMTICS Help Center](#).
- You can go back to the Tutorial and search in the text (use the Find function in your browser)
- If you have a SIMTICS product question that you can't find the answer to in the above resources, you can talk to the SIMTICS support team using the chat system on the website.

If no-one is available to answer your question at the time, leave your email address and one of the team will get back to you as soon as they can.

Happy studying with SIMTICS!
